

Hear the truth™

JBL SOUNDFLY™ BT PLUG-IN SPEAKER

Introducing the JBL SoundFly™ BT, a powerful speaker that plugs directly into your home's wall outlets and streams audio via your favorite *Bluetooth*®-enabled devices – no messy cables or shelf space required.

LEGENDARY SOUND SINCE 1946

PLUG IN AND LET YOUR SOUND SOAR.

Looking for a wireless audio solution for your home? Meet the JBL SoundFly™ BT plug-in speaker. Designed to bring about the best possible wireless audio solution for your home, it plugs directly into your wall outlets – no wires, shelf space or expensive receiver needed. All you need is a *Bluetooth*®-enabled audio device. And don't be fooled by its size. This small wonder delivers a full spectrum of sound. A free downloadable Android™ app gives you additional functionality. With it, you can browse music with cover art, adjust volume, and fully customize the digital signal processing (DSP).

Completely Wireless Design

- Works with your *Bluetooth*-enabled devices
- Free downloadable Android app
- Revolutionary plug-in design

Plug In to Great Sound

- Great JBL® sound from anywhere in your house
- Computer-optimized equalization (COE) and optimized compression topology (OCT)

KEY FEATURES

JBL SOUNDFLY™ BT PLUG-IN SPEAKER

Hear the truth™

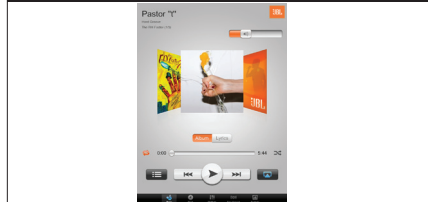

Don't let size fool you. This compact wireless speaker delivers the same powerful JBL® sound you've come to love and expect over the years.

Integrated *Bluetooth* technology

The latest *Bluetooth* technology provides high-quality music streaming using your digital audio devices. It works with mobile phones, MP3 players, tablets, laptops and PCs.

Free downloadable Android app

Connect with a single touch using the free downloadable app made exclusively for the JBL SoundFly BT. Additional functionality includes the ability to browse music with cover art, adjust volume, and customize the digital signal processing (DSP). It also works with the iPhone/iPod EQ app.

Easy set-up with Voice Feedback

The JBL SoundFly BT will speak to you and guide you through the set-up, meaning you can get up and running with no hassle.

Revolutionary plug-in design

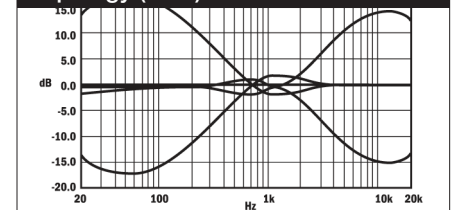

Plug the JBL SoundFly BT speaker into any AC wall outlet – no messy wires or shelf space are needed.

Great JBL sound anywhere in your house

Get the great JBL sound you've come to love – all you need is a wall outlet. The JBL SoundFly BT speaker features 20 watts of power amplification and up to 20kHz frequency response.

Computer-optimized equalization (COE) and optimized compression topology (OCT)

COE uses digital signal processing (DSP) to provide a rich musical soundstage while OCT ensures clear, low-distortion sound.
