REFERENCE SUBWOOFERS

Looking for a more moving audio experience? Take Infinity® car audio for a ride. Innovative materials and breakthrough engineering have always put Infinity products out in front of the competition's. So expect extreme output from these subwoofers, but be prepared for accuracy and detail that may surprise you. Infinity Reference Series subwoofers deliver serious low bass with incredible detail and clarity, thanks to their low-distortion motor design.

LARGE-ROLL RUBBER SURROUNDS

This material provides optimal cone-edge suspension and absorbs distortions that may travel up the cone edge. The benefit is an audible reduction in distortion.

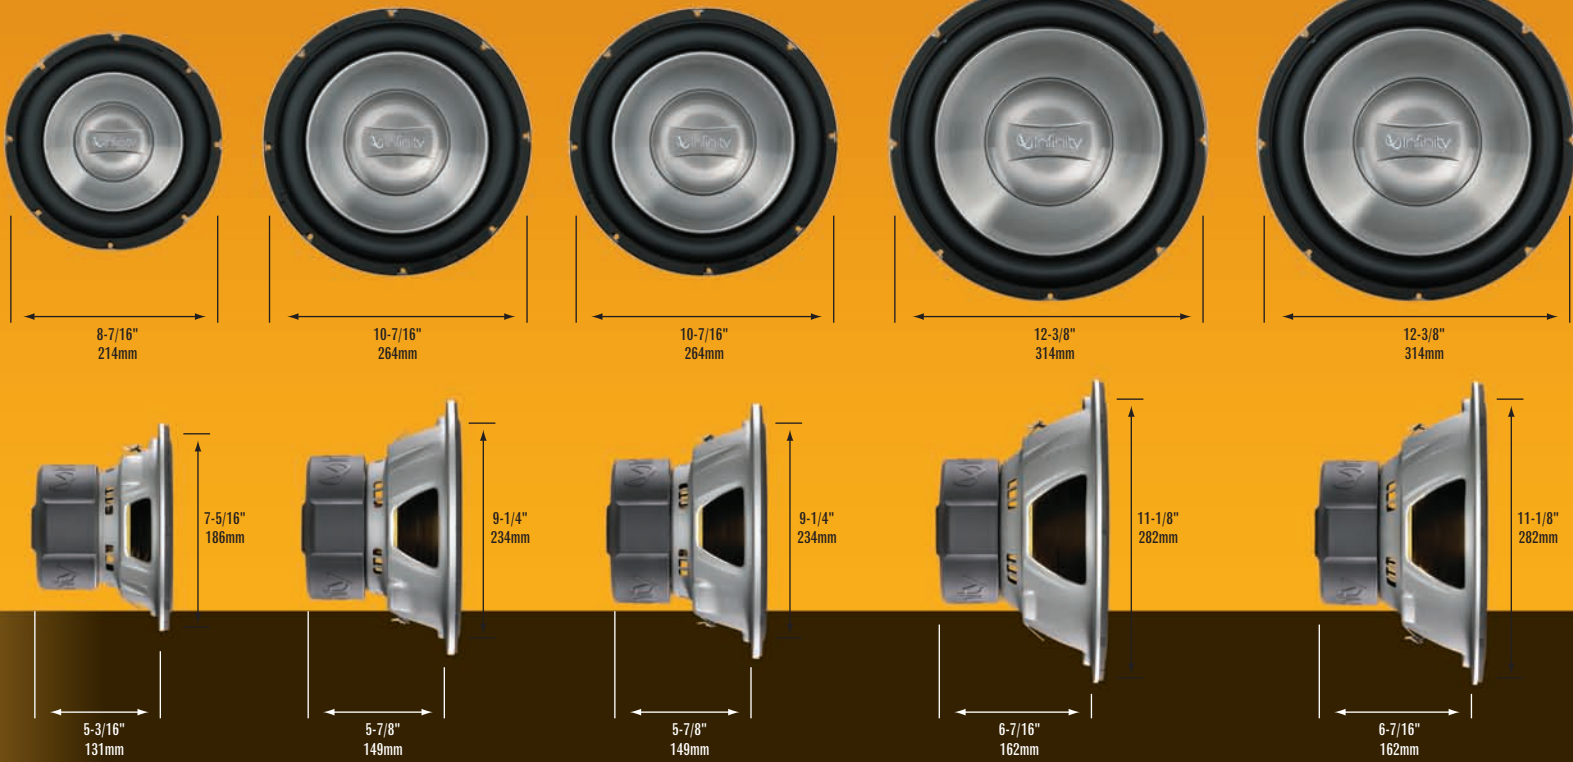

PROGRESSIVE SPIDER

Each Reference subwoofer features a progressive spider, applying progressively more force as the cone travel approaches its limit. The result is a subwoofer in better control when pushed to extreme excursions, delivering more bass, free from distortion and breakup.

POLYPROPYLENE WOOFER CONE

This cone material is lightweight yet stiff, providing a great balance between efficiency and power handling.

REFERENCE

860w

8" (200MM) SUBWOOFER

Polypropylene woofer cone

Proprietary frame

Single 4-ohm voice coil

Sensitivity: 91dB

Frequency response: 30Hz – 400Hz

Power handling, RMS: 250 watts

Power handling, peak: 1000 watts

1060w

10" (250MM) SUBWOOFER

Polypropylene woofer cone

Proprietary frame

Single 4-ohm voice coil

Sensitivity: 91dB

Frequency response: 25Hz – 400Hz

Power handling, RMS: 275 watts

Power handling, peak: 1100 watts

1062w

10" (250MM) DUAL-VOICE-COIL SUBWOOFER

Polypropylene woofer cone

Proprietary frame

Dual 4-ohm voice coils

Sensitivity: 94dB

Frequency response: 25Hz – 400Hz

Power handling, RMS: 275 watts

Power handling, peak: 1100 watts

1260w

12" (300MM) SUBWOOFER

Polypropylene woofer cone

Proprietary frame

Single 4-ohm voice coil

Sensitivity: 93dB

Frequency response: 23Hz – 400Hz

Power handling, RMS: 300 watts

Power handling, peak: 1200 watts

1262w

12" (300MM) DUAL-VOICE-COIL SUBWOOFER

Polypropylene woofer cone

Proprietary frame

Dual 4-ohm voice coils

Sensitivity: 96dB

Frequency response: 23Hz – 400Hz

Power handling, RMS: 300 watts

Power handling, peak: 1200 watts
