

# THRILL Vertical Fogger

Vertical fog and light effects generator

## Atmospheric effects for maximum attention

Blasts 7 m (25 ft.) high plumes of LED illuminated fog that simulate pyrotechnical effects, CO<sub>2</sub> style jets, or “cryo” white dense cloud effects.

## Easy plug-n-play control

Works right out of the box with the included 4-channel wireless remote control enabling quick programming of the 36 vibrant pre-programmed colors and fog. DMX operable for individualized control and design featuring fog, color mixing, simulated color wheel, and dynamic shutter effects.

## Fog effects at any angle

The THRILL Vertical Fogger includes a mounting bracket allowing the machine to be set up at almost any angle. The fixture can even be mounted upside-down and affixed to a truss or ceiling simply by inverting the fluid reservoir.

Fire this machine up and your party, show, event or business presentation is guaranteed to turn heads. Get maximum attention when you instantly fill the room with a hefty blast of fog and light from virtually any direction. Beyond just lights and fog, its nozzle is designed to produce a boisterous noise simulating a natural fissure in the earth—creating an astonishingly real “volcanic” effect. And you can link multiple units for even bigger impact.

## KEY MESSAGES

### MARTIN HERITAGE

For 30 years, the Martin brand has been the leading choice of professional lighting designers, rental and production houses, and installers across the global architectural, commercial, and entertainment lighting markets. With the THRILL series, Martin is bringing its industry-leading excellence in dynamic light and visual effects to new audiences by providing more affordable and easier-to-use models, while still retaining a die-hard dedication to quality and our customers.

### WORKS RIGHT OUT OF THE BOX

With easy-to-use presets and an included wireless remote, THRILL Vertical Fogger is a perfect fit for musicians, DJs and home enthusiasts who want to spend their time focused on entertaining, rather than setting up and controlling complex equipment.

### PORTABLE AND LIGHTWEIGHT DESIGN

Its portable and lightweight design makes it ideal for on-the-go entertainers and small venues working with limited stage footprints. It's also perfect for rental companies who want to supply fog and lighting solutions for smaller setups that do not have the budget for professional lighting operators.

### PERFORMANCE

The THRILL Vertical Fogger is an atmospheric fog machine that features built-in LED lights capable of producing high-velocity 7 m (25 ft.) high plumes of colored fog that simulate pyrotechnical effects, CO<sub>2</sub> style jets, or “cryo” white dense cloud effects. With 21 bright R/G/B LEDs and 36 color presets, the THRILL Vertical Fogger offers virtually limitless color mixing + strobe and dimmer for added wow-effect. For more control options, it can also be operated via DMX.
